2006 You personaggio dell'anno

Giugno 2009 - Twitter

E. Santoro, Reggio Emilia 2 ottobre 2009

Il web 2.0 - 1

- Neologismo web 2.0 è coniato nel 2004 da O'Reilly
- Alcune definizioni:
 - una piattaforma software
 - un'architettura della partecipazione
 - nuova generazione di strumenti e servizi web-based volti a enfatizzare la collaborazione tra utenti

E. Santoro, Reggio Emilia 2 ottobre 2009

Il web 2.0 - 2

- La definizione forse più corretta è quella che la avvicina al mondo dell' **“open access”**, inteso come luogo (virtuale) al quale chiunque può **liberamente** accedere attraverso l'impiego di **software gratuito** al fine di **condividere** informazioni e **collaborare** per creare **nuova conoscenza**, e nel quale gli utenti siano al tempo stesso **produttori** e **fruitori** dell'informazione.

Giugno 2009 – Twitter/ASCO

3/6/2009 TUMORI: ASCO, TWITTER CONQUISTA ONCOLOGI USA

Orlando, 1 giu. (Adnkronos Salute) - Dopo aver sedotto i politici Usa e lo stesso presidente degli Stati Uniti, il cinguettio di Twitter ha conquistato anche gli oncologi americani. Gli specialisti riuniti a Orlando al meeting dell'American Society of Clinical Oncology, infatti, fanno a gara ad aggiornare il sito con messaggi in tempo reale sulle ultime novità della lotta ai tumori. E la sessione del congresso dedicata proprio a questo servizio di microblogging ha raccolto circa 600 iscritti, con soddisfazione dell'organizzatore, Michael Glode, oncologo medico della Washington University di St. Louis. Il segreto del successo di questa formula, che permette agli utenti di mandare aggiornamenti al proprio status con messaggi di testo lunghi non più di 140 caratteri (tramite il sito stesso, via sms, e-mail) e' nella sintesi abbinata alla rapidità. Un sistema che ormai negli Usa ha conquistato tutti, tanto che il presidente Barack Obama vanta già 1 milione di "followers", cioè "seguaci". Gli aggiornamenti sono mostrati nella pagina di profilo dell'utente e istantaneamente agli altri utenti che si sono registrati per riceverli. Chi li manda può scegliere se inviarli solamente ad una ristretta cerchia di amici, oppure a chiunque. Sul sito dell'Asco e' stato realizzato un collegamento ad hoc, per permettere ai fedeli di Twitter di aggiornare i propri "followers". Con studi, ricerche, ma anche lamentele per la temperatura polare al Congresso. E in tanti autori internazionali spicca l'unico italiano presente, "amarantoblock". Un giornalista specializzato che "twittera" in italiano e inglese e che, in tre mesi, ha raccolto 1.800 fan, con messaggi su salute, prevenzione e stili di vita. Dall'Asco in tre giorni ha mandato una ventina di "tip cip" telematici.

Tecnologia RSS e aggregatori di notizie

E. Santoro, Reggio Emilia 2 ottobre 2009

RSS - 1

- **R**eally **S**imple **S**yndication
- **R**esource Description Framework (RDF) **S**ite **S**ummary
- Tecnologia inventata da Netscape (1999) per distribuzione contenuti dal portale My.Netscape.Com
- Un formato per la distribuzione di contenuti sul web (basato su XML)
- Distribuzione attraverso feed RSS

E. Santoro, Reggio Emilia 2 ottobre 2009

RSS - 2

Simbologia

RSS

XML

RDF

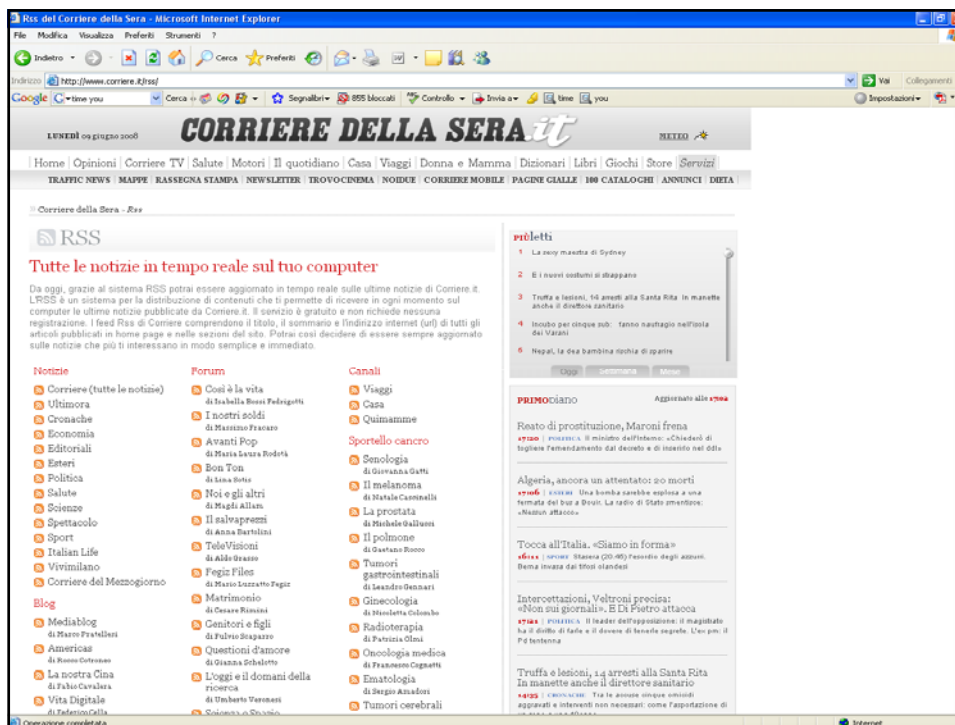

RSS - 3

- E' una tecnologia che dà la possibilità di **ricevere** e **organizzare** automaticamente in **un unico posto** i contenuti del web ai quali un utente è **interessato**
- Usata da portali di informazione per inviare automaticamente gli aggiornamenti

E. Santoro, Reggio Emilia 2 ottobre 2009

Come leggere i feed RSS

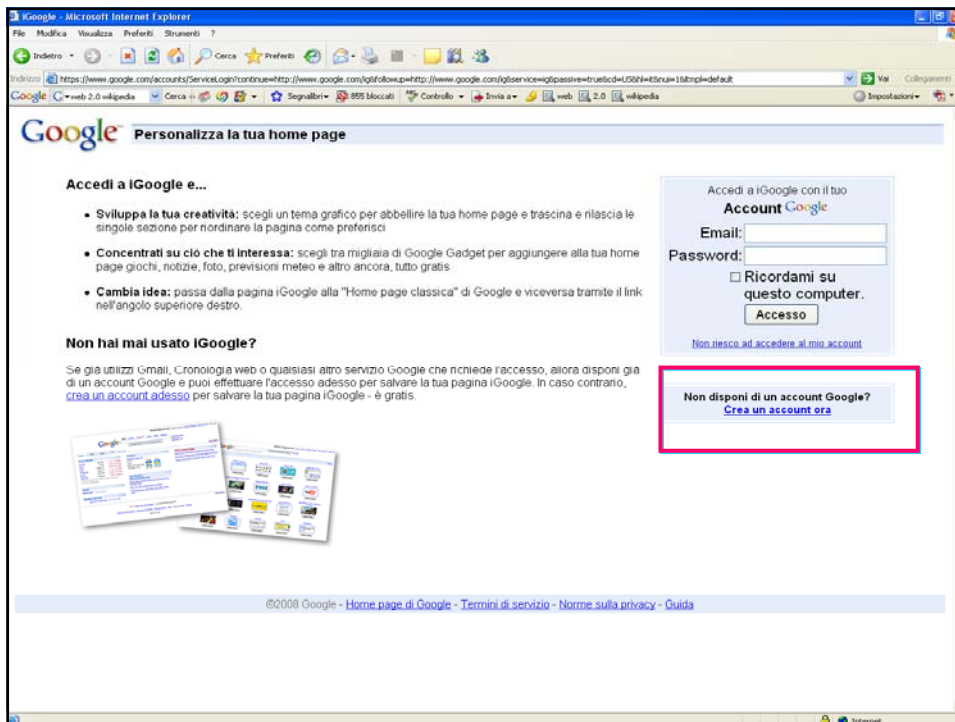

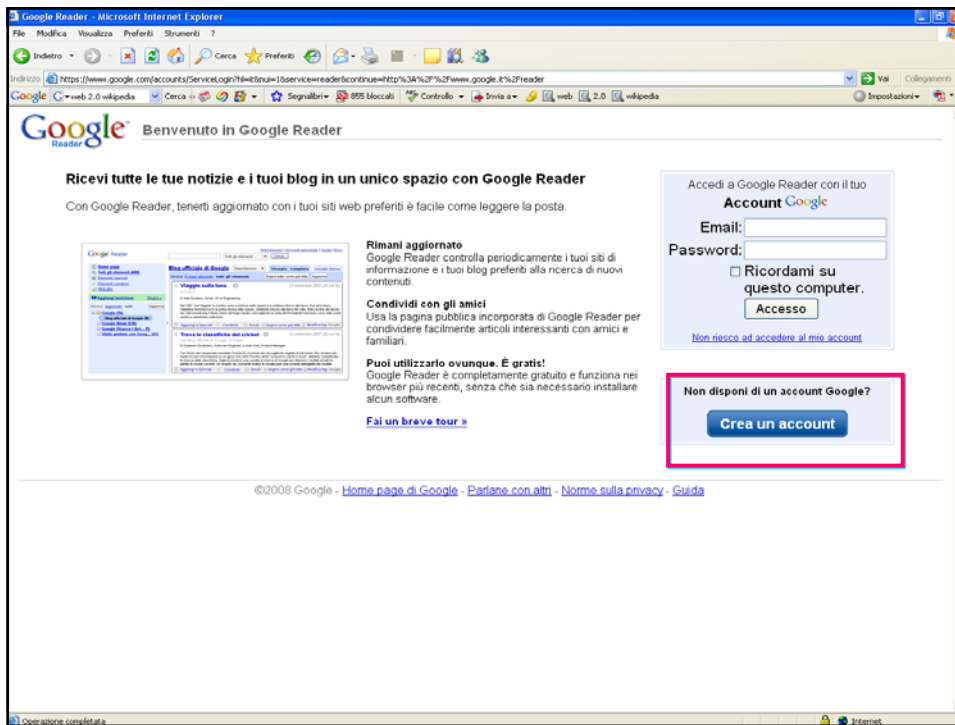

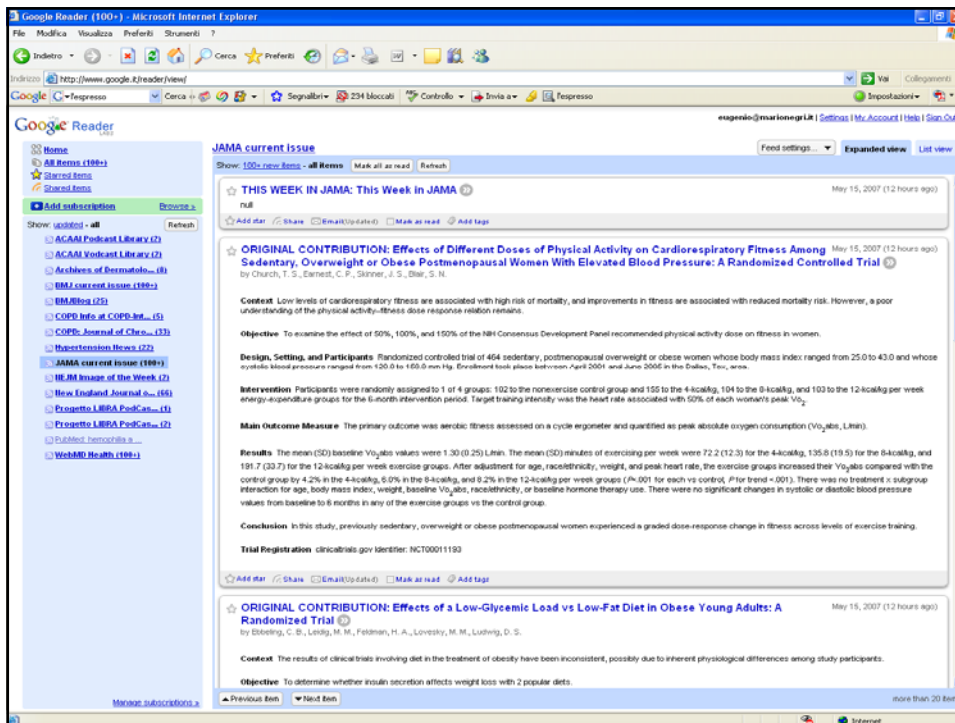

- Attraverso software chiamati feed reader (oppure newsreader, feed aggregator, news aggregator, RSS reader)
 - Software client (p.e. FeedReader)
 - Browser recenti (IE ver 7, Mozilla Firefox)
 - Web-based (p.e. Google Reader, iGoogle, Bloglines)
- E' necessario registrarsi al servizio
 - Cliccare sull'icona 

oppure

 - Registrazione manuale attraverso copia dell'indirizzo URL nel feed reader usato

E. Santoro, Reggio Emilia 2 ottobre 2009

About RSS at the NEJM Online

Welcome to the NEJM Online RSS Feed page. Really simple syndication (RSS) is a technology that allows you to stay up to date with the latest information. Here you will find feeds you can download to automatically receive updated article summaries from the New England Journal of Medicine. All you need is an RSS reader - software is available for Mac and Windows, and there are also web-based services that are free to use. If you want to learn more about RSS, please see this [article in the New England Journal of Medicine](#) or the [CME Tutorial](#).

What is RSS?

Each new issue of JAMA and the 9 Archives journals has an accompanying free RSS feed, which is a special Web page formatted for RSS readers. An RSS reader, sometimes called an RSS aggregator, is a program that displays the content, usually headlines and article summaries, of the feeds to which you subscribe. JAMA and the Archives Journals offer feeds for the current issue and for the 3 most recent issues. Each RSS feed includes article titles, abstracts for articles that include them, and links to the full text version. Early Release articles also have an accompanying RSS feed.

To receive an RSS feed you will need an RSS reader. There are many different versions, some of which are accessed using your Web browser, and some of which can be downloaded to your computer. All allow you to display and subscribe to the RSS feeds you want.

How do I get an RSS reader?

The RSS reader receives all the RSS feeds you have selected and displays them in a format similar to e-mails displayed in your inbox. With each new journal issue that is published, the RSS feed will include all of the article titles in the issue and the abstracts for those articles that have them, with links to the full text of the articles. Usually the reader also indicates whether you have already viewed a particular title.

There are many different RSS readers, some of which are accessed using a browser and some of which can be downloaded to your computer. Once you have selected an RSS reader, you can sign up to receive the titles of the latest JAMA & Archives issues via RSS. Some examples are listed below. JAMA & Archives Journals does not endorse any particular Web sites or RSS readers.

Medscape Headlines in RSS

Have you ever wished you could be alerted as soon as something new gets posted in your specialty on Medscape? Would you like to have a way to browse everything we post in your specialty in one, easy-to-read format?

Now you can, with our new Medscape Headlines Feed in RSS format. RSS is a special type of file that is used by a new type of program called a News Reader. These News Readers run on your computer and check for new stories on Medscape on an hourly basis (check below for a list of popular News Readers). All you need to do is download one of the freely available News Reader applications and subscribe to the Medscape Headlines; you would like to read by plugging in the address of the specialties that interest you from the list below.

BIBLIOTECA

Feed RSS del portale Progettoasco.it

Tutte le notizie in tempo reale sul tuo computer.
Da oggi, grazie al sistema RSS potrai essere aggiornato in tempo reale sulle ultime pubblicazioni inserite in Progettoasco.it. L-RSS è un sistema per la distribuzione di contenuti che ti permette di ricevere in ogni momento sul computer le ultime notizie.

Il servizio è gratuito e non richiede nessuna registrazione. I feed RSS di Progettoasco comprendono il titolo e l'indirizzo internet (url) di tutti gli articoli pubblicati in Home page e nelle Aree Cardiovascolare e Dolore del sito; potrai così decidere di essere sempre aggiornato sulle notizie che più ti interessano in modo semplice e immediato.

- Tutti gli articoli pubblicati
- Articoli di Area Cardiovascolare
- Articoli di Area Dolore

Il formato RSS: un un pò di storia (tratto da wikipedia)

RSS è un formato per la distribuzione di contenuti sul Web. Fu lanciato per la prima volta da Netscape. Si trattava di un formato per la gestione dei contenuti del portale My Netscape Network; il formato permetteva la visualizzazione sul portale di Avastino e link relativi a notizie pubblicate su altri siti e rese disponibili attraverso a specifico buon prezzo. Fu subito un grande successo; in breve, centinaia di fornitori di contenuti aderirono all'iniziativa e il portale My Netscape poté beneficiare di una vasta raccolta di notizie a disposizione dei propri utenti registrati.

Oggi RSS è lo standard de facto per l'esportazione di contenuti Web. I principali siti di informazione, i quotidiani online, i fornitori di contenuti, i blog più popolari tutti sembrano aver adottato il formato RSS. Gli utenti possono oggi accedere a migliaia di feed RSS; alcuni siti (directory) raccolgono i riferimenti agli innumerevoli feed RSS disponibili sul Web.

ICritical Care Podcasts allow listeners to keep up-to-date with the latest in critical care. Dubbed "critical care radio," podcasts can be accessed through a personal computer or any portable media player such as an iPod or other MP3 player.

Join the associate editor for podcasting, SCCM member Rich Savel, MD, in thought-provoking interviews with:

- Authors from Critical Connections, Critical Care Medicine and Pediatric Critical Care Medicine
- Members of the SCCM leadership
- Other prominent members of the critical care community

Note: All authors are required to resolve conflicts of interest before publishing. Any conflicts of interest appear with the original source of the podcast.

COS'È IL PROGETTO ASCO

A.S.C.O. è "Aggiornamento Scientifico Continuo Online" il progetto di relazione una serie di articoli internazionali per favorire l'applicazione delle novità scientifiche alla pratica clinico-assistenziale quotidiana.

CERCA

Articoli in evidenza (1 - 15 Maggio 2008)
 Prossimo aggiornamento: 5 Giugno 2008

LINEE GUIDA: Linee guida sulla gestione della dispnea in medicina generale

FORMAZIONE: Legenda EBH (Dr. A. Santopoli)

Area DOLORE: [Numero 26 - Articolo 2, 5/2008] La Diffusione internazionale indom degli oppiacei. Una recente review **ASCO**
 (Dr. Roberto Andreatti)

Area DOLORE: [Numero 26 - Articolo 1, 5/2008] Aggiornamento sull'impiego di analgesici vs. FANS nelle patologie muscolo-scheletriche: rischi e benefici **ASCO**
 (Dr. Pio Ferrero)

Area CARDIOVASCOLARE: [Numero 26 - Articolo 2, 5/2008] Confronto tra progliadone e glimepiride sulla progressione dell'aterosclerosi in pazienti con diabete di tipo 2 **ASCO**
 (Dr. Italo Padua)

Area CARDIOVASCOLARE: [Numero 26 - Articolo 1, 5/2008] Tebicartan, rampril o edrambi nei pazienti ad alto rischio di eventi vascolari **ASCO**
 (Dr. Bruno Gilestro)

Area TECNOLOGIE PER LA SALUTE: [Numero 7, 5/2008] Impiego della Intermittentia nella terapia cognitivo-comportamentale della bulimia nervosa **ASCO**
 (Dr. Piercarlo Sarani)

Area TECNOLOGIE PER LA SALUTE: [Numero 6, 4/2008] Sviluppo attentivo a studio pilota di una rete per il monitoraggio delle attività di emergenza sanitaria in Norvegia
 (Dr. Piercarlo Sarani)

Area PNEUMOLOGICA: [Numero 3, 4/2008] Associazione del

Le riviste censite sono:

- Generobiotica
- HEIM - IBSO - JAMA
- Archives of Internal Medicine
- The Lancet - Family Practice
- British Journal of GP - Annals of Internal Medicine
- Area Cardiovascolare: Circulation - European Heart Journal - JACC - European J of Cardiovascular Prevention and Rehabilitation - Current opinion on Cardiology - Journal of Hypertension
- Area Dolore: Journal of Clinical Oncology - Pain - Cancer - British Journal of Cancer - Palliative Medicine - European Journal of Palliative Care - Annals of Oncology - European Journal of Supportive Care - Journal of Pain and Symptom Management - Journal of Palliative Care - The Clinical Journal of Pain

The screenshot shows a Microsoft Internet Explorer browser window displaying a BMJ article. The address bar shows the URL: http://www.bmj.com/cgi/content/short/337/sep09_2/a1394. The page title is "Smoking cessation services for young people - Grimshaw and Stanton 337 (9): a1394 - BMJ - Microsoft Internet Explorer".

The page content includes:

- BMJ medical publication of the year** logo and navigation menu (Research, Education, News, Comment, Topics, Archive, About BMJ).
- Article Title:** "Smoking cessation services for young people".
- Author:** Gill M Grimshaw, Alan Stanton.
- Abstract:** "Have only modest effects, but respect and encouragement may help".
- Text:** "The first 150 words of the full text of this article appear below." "In the United Kingdom, around 12% of teenagers are regular smokers and in parts of the world more than 35% of young people smoke.¹ Evidence suggests that preventive measures have limited success in stemming the progress from early experimentation to addiction and on to long term regular smoking in adulthood.²

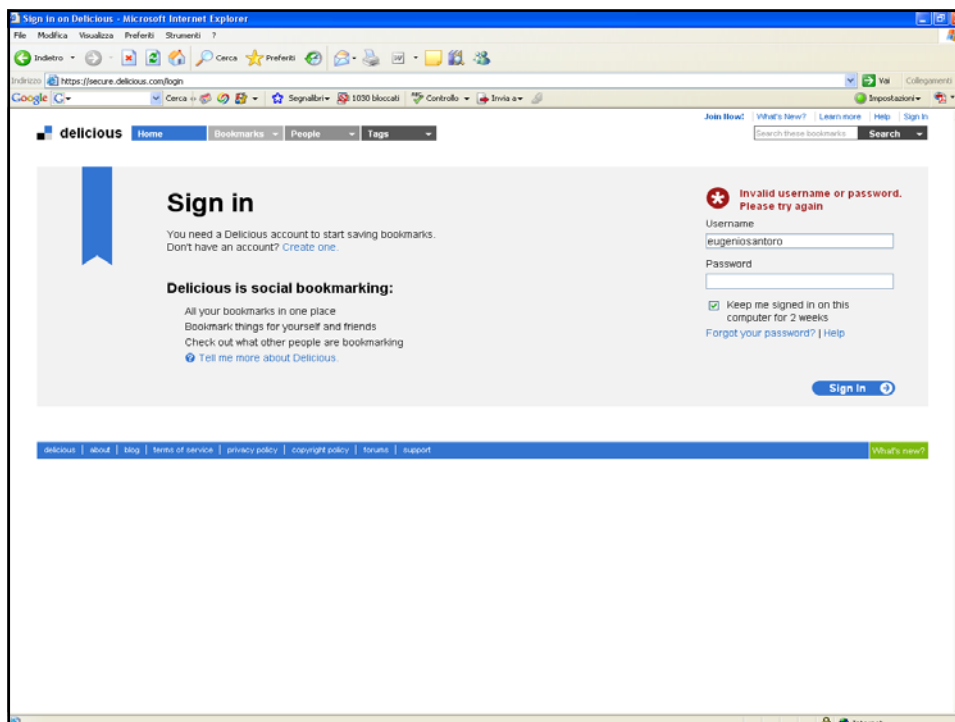

The right sidebar contains several sections:

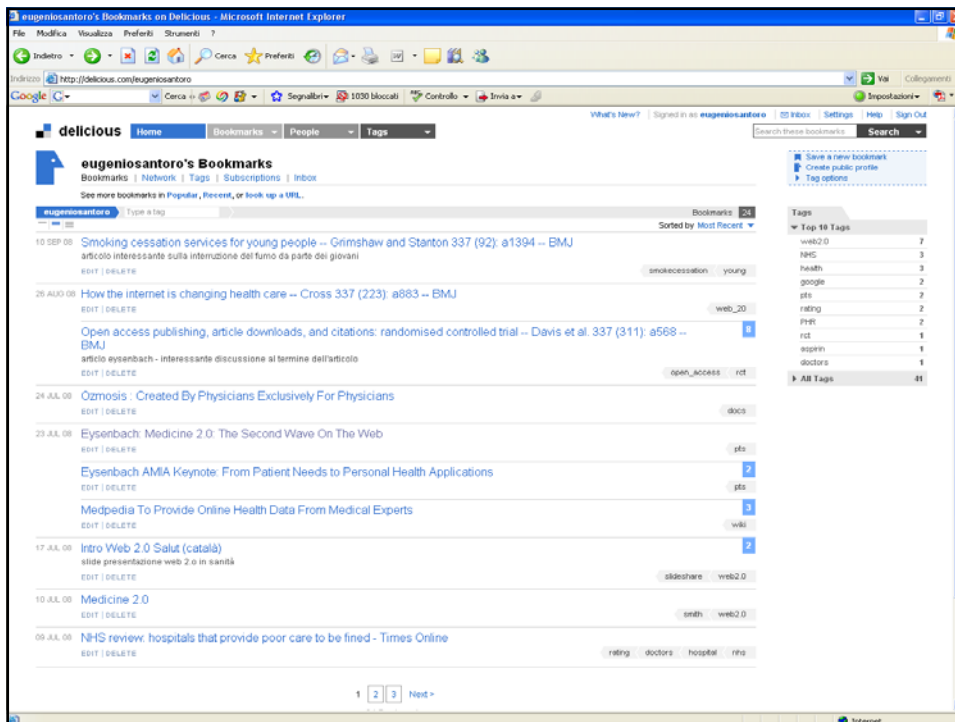

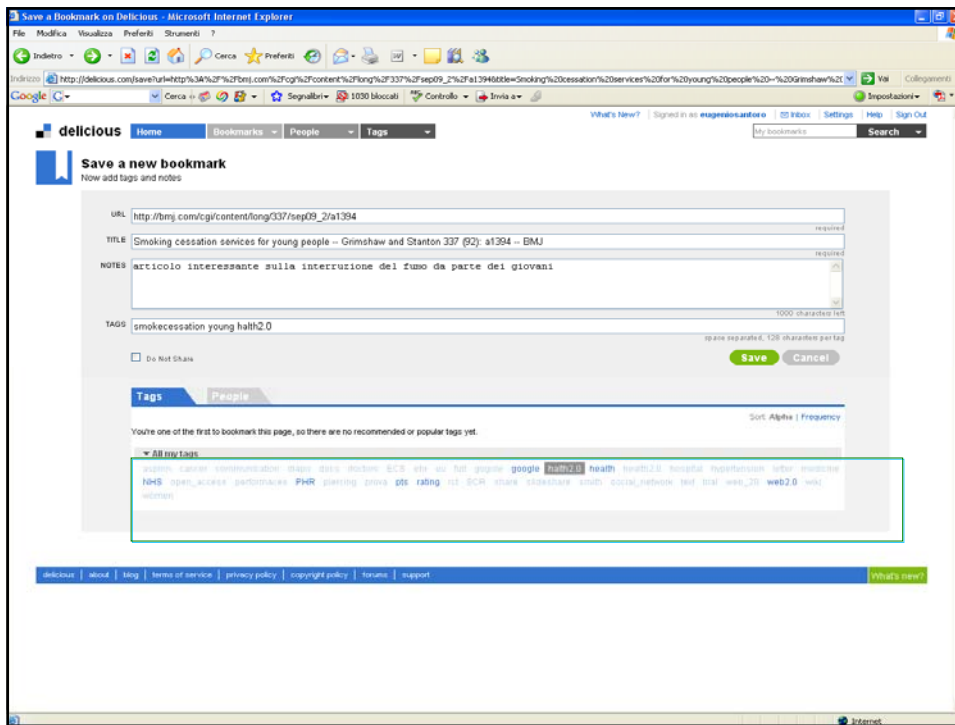

- What's new:** Last 7 days, Past weeks, Current print issue, Rapid responses.
- Latest blogs:** Anna Donald: What makes me happy?, Vidhya Alakeson: US election, Julian Sheather: Aoyum seekers' care, Liz Wager: Large Hadron Collider.
- Services:** Advanced search, Blogs, Podcasts, Submit an article, Subscribe/Activate, Email alerts, Request permissions.
- Tools:** Email to friend, Print this page, RSS.
- Online poll:** Should primary care be nurse led?
- VACANCY:** Jobs at BMJ Group.
- Student BMJ:** Sepsis: The latest guidelines will affect how we practice medicine.
- Listen to the latest BMJ Interview:** Ensure your patients receive reliable and trustworthy information about their treatment.
- BMJ BestTreatments**
